

Dingkang Teng

Tel: (+852)59578003 · Email: tengdingkang@gmail.com / dingkang.teng@connect.polyu.hk

Website: dingkangteng.github.io · GitHub: github.com/DingkangTeng

RESEARCH INTERESTS

Spatial Analysis · Mobility · Accessibility and Resilience · Socio-Spatial Implications · Big Data & Geo AI

EDUCATION

The Hong Kong Polytechnic University:

HONG KONG SAR

Department of Land Surveying and Geospatial Science

09/2024—07/2026

MSc in Urban Informatics and Smart Cities (*with Distinction*)

Related courses: Advanced GIS; Urban Big Data; Urban Informatics; Satellite Positioning & Navigation

Master's dissertation: Assessing the Resilience of Global Electric Vehicle Charging Stations under Flooding Condition

Huazhong Agricultural University (HZAU):

WUHAN, CHINA

Department of Land Management

09/2015—06/2019

B.A. in Land Resource Management

Related courses: Cartography; Science of Land Resource; Urban Planning; Economics; C++

Bachelor's thesis: Research on the Distribution and Reconstruction of Land Value-added Income of Collective Operational Construction Land

SKILLS

- Geospatial & Cyberinfrastructure: Proficient in ArcGIS; experience with large-scale spatial data processing; familiar with cyberinfrastructure for spatial data science.
- Programming languages: Python, Java, HTML, PHP, SQL, JavaScript, C/C++
- Language: Mandarin (Native); English (Professional Working); Cantonese (Basic)

PUBLICATION

Published Papers

- Ma, R., Guan, M., **Teng, D.**, Yang, X., & Zhuge, C. (2026). Dynamic Social Disparities in the U.S. Electric Vehicle Charging Infrastructure System. *Transportation Research Part D*, 155, 105307, <https://doi.org/10.1016/j.trd.2026.105307>
- **Teng, D.**, Tang, J. H. C. G., Ma, R., Yang, X., & Zhuge, C. (2026). A global insight into integration of metro and electric vehicle charging stations. *Sustainable Cities and Society*, 139, 107217. <https://doi.org/10.1016/j.scs.2026.107217>

Under Review

- **Teng, D.**, Tang, J.H.C.G., Ma, R., Yang, X., He, M., Wei, B., Li, Y., Peng, Z., & Zhuge, C. Advancing accessibility and equity of public electric vehicle charging stations in China. *Transport Policy*. Under review.
- Ma, R., **Teng, D.**, Yang, X., Tang, J.H.C.G., Liu, J., Chen, D., Zhao, J., Zhuge, C. From Points to Patterns: Global Spatial Accessibility and Equity in Public Electric Vehicle Charging. *Sustainable Cities and Society*, Under review.

RESEARCH EXPERIENCE

Technology Infrastructure Policy • Global EV Data Initiative

01/2025—06/2026

The Hong Kong Polytechnic University

Focusing on Technology innovation, Infrastructure planning and Policy making in Smart Cities

- Conduct large-scale spatial analysis on global electric vehicle charging infrastructure.
- Process and analyze multi-source geospatial datasets (global-scale) using Python-based spatial data science workflows.
- Contribute to peer-reviewed publications on infrastructure equity and disaster vulnerability.

Innovation Leadership and Entrepreneurship Internship

06/2017—06/2019

Huazhong Agricultural University

Study on influencing factors of paid withdrawal of homestead

- Designed questionnaires, utilized AHP for in-depth data analysis, and drew accurate and weighted conclusions.
- Synthesized the collected data and findings. Drafted a detailed, evidence-based report.

PROFESSIONAL QUALIFICATIONS

Certificate of Registered Real Estate Appraiser

2026

- Issuing Authority: Ministry of Housing and Urban-Rural Development, P.R. China & Ministry of Natural Resources, P.R. China

WORKING EXPERIENCE

Teaching Assistant, Intelligent Transportation Systems (LSGI3213)

09/2025-12/2025

The Hong Kong Polytechnic University

- Facilitated weekly lab sessions, providing hands-on guidance for data analysis and simulation modeling software.

Technical Manager

10/2018-06/2024

Realhom Land Real Estate Assets Appraisal Co., Ltd

- Managed advanced engineering tasks with focus on natural resource survey and evaluation, IT support, and led geography information initiatives including data analysis, database construction, mapping, and GIS training.
- Conducted a comprehensive study on the evaluation method for state-owned agricultural land use rights.
- Spearheaded the secondary development of an automated calculation and processing tool in ArcGIS designed to enhance efficiency and accuracy within natural resource projects.

PROJECT EXPERIENCE

Land Classification & Standard Price in Collective Agricultural Land

06/2023-06/2024

Project Leader

- Led spatial analysis, rank classification, price estimation and GIS related processes.

Natural Resource Asset Inventory of Tieshan and Daye

12/2020-06/2024

Project Leader

- Managed price calculation, database creation, result summarization, and mapping tasks.
- Provided guidance to teams working in other cities, including Huanggang and Haikou.

China's Urban Land Price Dynamic Monitoring of Huangshi

12/2020-12/2023

Project Leader

- Responsible for data analysis and authoring comprehensive reports.
- Received the 2021 Excellence Award from the provincial department.

ACTIVITIES AND HONORS

- Association Chair**, school of land management student association 2016-2018
- Orchestrated the College Freshmen Party and the Campus Planning Competition.
- First prize, Yongyehang Cup** Undergraduate land use planning competition 2018
- Led the land use plan for Longma Village, managed team coordination, and authored the project report.
- Second prize, Chinese Land Cup** national undergraduate land use planning competition 2018
- Upgraded the land use plan as the team leader for Longma Village, conducted data analysis in ArcGIS and took charge of coordination within the team.
- Third prize**, National college students real estate appraisal competition 2018
- Prepared an appraisal report of an estate and carried out data analysis using FAHP.
- Outstanding Individual**, 2017 summer practice of HZAU 2017
- Led the other team members to undertake the sub-projects under the National Innovation and Entrepreneurship Training Program for College Students.
- Second prize, KQ Geo Technologies Cup** GIS competition 2017
- Conducted the data analysis in ArcGIS and classified the land rank in some parts of Tokyo.
